

ABOUT

I'm a driven, talented, and creative designer/developer that is both a self-starter and a team player.

My belief is that good design is always intuitive, accessible, and visually appealing.

WORK HISTORY

Website Designer/Developer II

November 2020 - **Present**

London Computer Systems

 Cincinnati, OH

- My current role involves: Designing/developing customer websites and LCS corporate websites, collaborating to define expectations and project goals, invoice/billing documentation, and leveraging various industry tools to implement solutions with a full-stack web development focus.

Web & Email Manager

July 2020 - November 2020

Union Institute & University

 Cincinnati, OH

- In this role, I oversaw all functions related to the Union Institute & University website(s). Additionally, I designed, managed, and implemented email marketing and communications.

Graphic & Web Designer

January 2018 - June 2019

Bravura Advertising & Design

 Columbus, OH

- This fast-paced agency role focused on designing print and digital advertisements for a large, active roster. Clients were either local businesses or within automotive brands like BMW and Mercedes-Benz. Thus, Creating legally compliant work and maintaining brand standards were key to my success.

Designer / Developer

April 2013 - **Present**

Thomas F. Kelly Design

- I have built a strong, diverse portfolio of freelance design work for companies of various sizes. These projects typically focus on: graphic design, brand identity, web development, user experience, and SEO. I am adaptive and always strive to go above and beyond expectations.

Web Designer

August 2013 - February 2015

De Beaufort Group

 Washington, D.C.

- De Beaufort Group is a Washington D.C based law firm specializing in public/private partnerships. As the sole web developer and designer, I brought several different branding and user experience design projects from conceptualization to completion.
